4. Compliance declaration and the basis for the preparation of the interim condensed consolidated financial statements

The accounting policies applied during the preparation of the condensed interim consolidated financial statements are consistent with those applied during the preparation of the annual consolidated financial statements for the year ended 31 December 2017, with the exception of the application of the following new or amended standards and interpretations applicable to annual periods beginning on or after 1 January 2018.

The IFRSs comprise standards and interpretations adopted by the International Accounting Standards Board ('IASB') and the International Financial Reporting Interpretations Committee ('IFRIC'). The IFRSs as approved by the EU do not differ significantly from the regulations approved by the International Accounting Standards Board (IASB), except for the following items awaiting the approval by the European Union.

When preparing these interim condensed financial statements, certain information and disclosures which, in accordance with the IFRSs adopted by the EU, are usually included in the full financial statements, are presented here in an abbreviated form or omitted in accordance with IAS 34. Therefore, these interim financial statements should be read together with the most recent full consolidated financial statements of the Company prepared for the year ended 31 December 2017 and published on 29 March 2018.

The Issuer has not decided to apply any standard, interpretation or amendment which has not come into force yet, on an earlier date. The Company's Board of Directors is in the process of analysing and assessing their impact on the accounting policies applied by the Issuer and future separate financial statements.

5. The application of standards in 2018

IFRS 9 – first-time adoption and accounting policies

The Group implemented IFRS 9 on 1 January 2018 and decided to apply a modified retrospective approach with effect from 1 January 2018. Also in this case, in accordance with the option allowed by the standard, the Group has decided not to restate comparative data, which means that the data presented as at 31 December 2017 and for the period of three quarters ended on 30 September 2017 have been prepared on the basis of IAS 39.

Classification and measurement

From 1 January 2018, the Group has classified financial assets into one of three categories specified in IFRS 9:

- measured at fair value through other comprehensive income;
- measured at amortised cost;
- measured at fair value through profit or loss.

The Group classifies investments in debt instruments in a given category of assets on the basis of the business model for managing groups of financial assets and the contractual cash flow characteristics of a financial asset. Upon initial recognition, the Group classifies investments in equity instruments (other than related to investments in subsidiaries and associates) that are not held for trading and are not quoted on an active market as measured at fair value through other comprehensive income.

Whereas derivatives and investments in equity instruments quoted on an active market are measured at fair value through profit or loss. For the measurement at amortised cost, the Company classifies loans granted, trade receivables and other receivables subject to IFRS 9. Interest income on investments in debt instruments is recognised by the Company in profit or loss. Upon the disposal of investments in debt instruments, the Issuer recognises cumulative gain or loss from the measurement in profit or loss.

Measurement of financial assets at amortised cost

The Group measures financial assets at amortised cost using the effective interest rate method. Non-current receivables subject to IFRS 9 are discounted as at the balance sheet date. Trade receivables with maturities of less than 12 months are measured at the amount payable, less any expected loss allowance.

Measurement of financial liabilities at fair value through profit or loss

The Group recognises in profit or loss changes in the fair value of financial assets classified in this category of financial assets. Also, interest income and income from dividends received from equity instruments quoted on the active market are recognised in profit or loss.

Measurement of financial assets at fair value through other comprehensive income

The Group recognises gains/losses on the measurement of investments in debt instruments and in equity instruments classified by the Entity upon initial recognition in this category of assets, in other comprehensive income. Dividends from equity instruments measured at fair value through other comprehensive income are recognised by the Group as revenue in profit or loss. Interest income on investments in debt instruments is recognised by the Entity in profit or loss. Upon the disposal of investments in debt instruments, the Entity recognises cumulative gain or loss from the measurement in profit or loss.

Financial liabilities

The Group classifies financial liabilities into one of the following categories:

- measured at amortised cost;
- measured at fair value through profit or loss.

IFRS 15 – first-time adoption

The Group implemented IFRS 15 on 1 January 2018 and decided to apply the modified retrospective method, i.e. with the combined effect of the first-time adoption of the standard recognised on the date of the first application.

Therefore, the Group applied the practical expedient provided under IFRS 15 and decided not to restate comparative data. This means that the data as at 31 December 2017 and for the period of three quarters ended on 30 September 2017 have been prepared on the basis of the standards in force in these periods: IAS 18 *Revenue*, IAS 11 *Construction*

Contracts and interpretations related to the recognition of revenue before the entry into force of IFRS 15.

International Financial Reporting Standard 15 *Revenue from Contracts with Customers* ('IFRS 15')

establishes the so-called 'five-step model' for recognising revenue resulting from contracts with customers. Under IFRS 15, the Group recognises revenue at an amount that reflects the consideration to which the Group expects to be entitled in exchange for the transfer of promised goods or services to the customer.

The standards below have not been applied yet by the Group in the process of the preparation of these consolidated financial statements.
