**PEPEES S.A.**

*Interim abbreviated separate financial statement for 6 months ended on 30 June 2021 (data in PLN '000)*

**2. Information on reporting periods**

The presented abbreviated interim financial statement covers the period from 1 January 2021 to 30 June 2021, and the comparable financial data and information notes cover the period from 1 January 2020 to 30 June 2020 and additionally 31 December 2020 in case of financial and changes in equity statements.

**3. Basis of interim abbreviated financial statement**

This interim abbreviated financial statement has been made in accordance with the International Financial Reporting Standards (IFRS), particularly the International Accounting Standard 34 and IFRS approved by the EU. As at the date of approval of this statement for publication, taking into account the process of implementation of the IFRS standards in the EU and the business performed by the Company, as far as the accounting principles applied by the Company are concerned, there is no difference between IFRS standards that entered into force and IFRS standards approved by the EU. IFRS comprise standards and interpretations approved by the International Accounting Standards Board ("IASB") and International Financial Reporting Interpretations Committee ("IFRIC").

This interim abbreviated financial statement in Polish Złoty (PLN) and unless stated otherwise all values are given in PLN thousands.

This interim abbreviated financial statement has been made with assumption that the Company will continue operations in the foreseeable future. As of the approval date of this interim abbreviated financial statement, the Management Board of Przedsiębiorstwo Przemysł Spożywczy "PEPEES" S.A. does not notice circumstances indicating that the continuing Company operations are jeopardized.

The interim abbreviated financial statement does not include all information required for the annual financial statements and should be analysed together with the consolidated statement for financial year ended on 31 December 2020.

**4. Approval of interim abbreviated financial statement**

This interim abbreviated financial statement was approved for publication by the Management Board of Przedsiębiorstwo Przemysłu Spożywczo „PEPEES” S.A. on 21 September 2021.

**5. Important accounting rules (policies)**

The accounting rules (policies) used to make the interim abbreviated financial statement are consistent with those used to make the PEPEES S.A.'s annual abbreviated financial statement for financial year ended on 31 December 2020.

**6. New accounting standard and interpretation that have not been not used in this statement**

- Amendments to IAS 1 and IAS 8 - definition of term "significant". Amendment has not been approved by the European Commission.
- Amendments to IFRS 3 " Business combinations" – definition of a business. Amendment has not been approved by the European Commission.
- Amendments to IFRS 9, IAS 39 and IFRS 7 - reform of IBOR. Amendment has not been approved by the European Commission.

**PEPEES S.A.**

*Interim abbreviated separate financial statement for 6 months ended on 30 June 2021 (data in PLN '000)*

- IFRS 17 "Insurance agreements" This Standard defines a new approach to recognition, pricing, presentation and disclosure of insurance agreements

According to the Company's estimations, the above mentioned standards, amendments to the current standards and interpretation would not have significant impact on the financial statement, if they were applied by the Company as at the balance sheet date.

## **7. Untypical items significantly affecting the assets, liabilities, capital, financial result and cash flows.**

COVID-19 pandemic has influenced the Company's activities, mainly through reduction of the demand for the Company's products, decrease of the amount of sold products and reduction of prices. These factors affected the volume of revenues and profits shown in the statement of comprehensive income.

In the opinion of the Management Board, the above phenomena surely influence the results of the Company and the entire Group. Major threats are related to reduction of industrial production on the company's main export markets and the European Union (including the meat industry and ready products), reduction of demand for native potato starch, fall of starch prices on global markets. The above elements coincide with logistic problems, increased costs of transportation, longer payment periods (increase in the amount of receivables) and the fall of operating cash flows resulting from this. In result of the pandemic, no assets were lost and no significant changes in the statement on the financial condition occurred.

## **8. Change of accounting and presentation rules and correction of errors**

"PEPEES" S.A. did not adjust errors from previous years. The Company did not change previously applied accounting principles save for application of new or amended standards or interpretations applicable to annual periods commencing from 1 January 2020 onwards.

## **9. Seasonality and cyclicity of operations**

The Company operates in the industry sector "potato processing." The potatoes are harvested and bought during 3 months, but the products are sold all year.

## **10. Estimated values**

In the reporting period, the Company did not run tests for the loss of fixed assets value, as there were no indications that the assets had lost their value.

The receivables write-offs were revalued to reflect the risk of non-payments from customers.
